MMR_0280 Bruce W. Burbank

Bruce Warner Burbank

AUGUST 5, 1929 – APRIL 17, 2016

I found information related to **Bruce Warner Burbank** from Centennial, Colorado. Bruce was an engineer and systems planner. Friends and family remembered him as a close friend, a wonderful tutor, and someone who introduced them to HO Scale model railroading. He also authored model railroad articles and helped judge at NMRA events.

Mr. Burbank, I appreciate everything you have done for me and my family, the friendship and care. You were a very close friend and a wonderful tutor. The encouragement you gave me was a wonderful insight, and I enjoyed all the time I spent with you. You are the one who first got me into HO Scale model railroading, and it has stuck with me ever since. You will never be forgotten. Thank you for everything.
